For example:

**Teacher:** Could you please help me? One of my biggest dreams is to work in a big restaurant in Paris. How can I choose a career? And the most important question: How can I get my dreamed job?

**Students:** Of course, I can help you with some suggestions. First, you need to consider what you want to do in your life; in this case, you told me you want to work in a big restaurant in Paris. First of all, you need to study a chef career to improve all the knowledge in this area. When you finish your career, you should move to Paris to find a job. If you want to get your dreamed job, you should create a good resumé that includes abilities or skills acquired to make you attractive for a possible employment.

- **When asking about “Second Part” you may answer with all the grammar structures covered in such part.**

For example:

**Teacher:** How can I write an effective introduction for my essay? I’ve been working on that for many days, but it’s difficult to me.

**Students:** First, make sure that you know the topic you’re going to write about. If you have been working on that for many days, take a break and think what you are doing wrong. The most important thing you need to do is to get inspired about the topic you’ll talk about.

**Teacher:** Do you think the best option to get a house is buying or leasing it?

**Students:** I think the best option you can choose is buying a house, because either buying or leasing, you must pay. Anyway, it’s up to you.
